What is this product?

TYPE OF PRODUCT

The product is a sub-fund of Prism@ SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However, the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

The objective of the Sub-Fund is to seek long-term capital appreciation in USD by an active management, which may include some investments that could involve a high risk of return. The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The Sub-Fund may invest its assets in equities with no limits on any market all over the world and more particularly, but not limited, in OECD countries; therefore, it may invest in different currencies.

The Sub-Fund may also invest its assets in fixed income securities with no limits on any market all over the world and more particularly in OECD countries; therefore, it may invest in different currencies.

The Sub-Fund will not borrow money to increase its exposure to the markets.

The Sub-Fund may invest in money market instruments and may also hold , deposits with credit institutions.

The Sub-Fund will not invest more than 10% of its net assets in units of other UCITS and/or other UCI.

Furthermore, the Sub-Fund may engage in various portfolio strategies underlying all kinds of securities, such as derivatives, options and futures to attempt to reduce certain risks of investments or to attempt to enhance return.

Investors must accept and assume the risk that entails the Sub-Fund's investment policy as established from time to time by the Board of Directors.

This Class is cumulative. Dividend distributions are not planned.

What are the risks and what could I get in return?

Risk indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class.

This rates the potential losses from future performance at a high level. Poor market conditions are very likely to impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		5 years USD 10 000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	USD 4 070	USD 780	
	Average return each year	-59.3%	-40.0%	
Unfavourable scenario	What you might get back after costs	USD 6 860	USD 7 980	This type of scenario occurred for an investment in the product between August 2021 and December 2023.
	Average return each year	-31.4%	-4.4%	
Moderate scenario	What you might get back after costs	USD 10 760	USD 16 140	This type of scenario occurred for an investment in the product between May 2014 and May 2019.
	Average return each year	7.6%	10.1%	
Favourable scenario	What you might get back after costs	USD 20 850	USD 34 420	This type of scenario occurred for an investment in the product between June 2016 and June 2021.
	Average return each year	108.5%	28.0%	

The stress scenario shows what you might get back in extreme market circumstances.

What happens if BIL Manage Invest S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested

Investment of USD 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	USD 363	USD 2 848
Annual cost impact (*)	3.6%	3.6%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.7% before costs and 10.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Entry costs are currently of 0.00% and are allowed to increase up to 5.00%. A change of the applicable rate will be notified to prospective investors.	USD 0
Exit costs	There is no exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.39% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 239
Transaction costs	0.08% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 8
Incidental costs taken under specific conditions		
Performance fees	the Investment Manager receives a Performance Fee equivalent to 10% of the increase in the total net assets of the Sub-Fund calculated over a 12-month period corresponding in practice to a Financial Year. The first performance period for the Sub-Fund begins on the date of the launching of the Sub-Fund, taking into account that the first performance fees crystallisation should occur only after a minimum period of twelve months following the inception date. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	USD 116

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

Shareholders whose application for subscription, conversion or redemption of Shares is accepted will have their Shares subscribed, converted or redeemed as of the Valuation Day in which their application form and, if appropriate, the requested documents are received, provided that such application and, if appropriate, requested documents are received by the Registrar and Transfer Agent before 12.00 noon, Luxembourg time, on that Valuation Day. Therefore, applications received after 12.00 noon, Luxembourg time, on the Valuation Day, will be dealt with on the next Valuation Day. Payments for subscriptions must be made at the latest on the applicable Valuation Day.
